

# *Testimonial*

---

**By Doug Stetson**

I started using the water in September of 2007. My cholesterol has dropped from 252 to 115. Obesity and weight gain has reversed while losing 74 lbs. My fast acting insulin shots for diabetes has ceased and my slow acting has dropped 70% while maintaining a below "100" reading daily. My blood pressure has dropped. My constipation is gone and joint pain improved dramatically. My colon has been cleansed and constipation is gone. My energy is higher than anytime in the last 10 years. Kangen water™ treated my body and the body healed its self. An association of 6500 "Adult Disease Doctors" recommend it. The Japanese live the longest in the world as we rank 42nd and 37th for men and women. It's been declared a "Medical Device" in Japan and available by perscription in Canada. The best thing is you can try it for free and let your body tell you the difference! The statements here are my own and not intended to cure or diagnose. If questions consult your physician.
